

The screenshot shows a Windows XP desktop environment. The active window is titled "CSCL 2005" and has a menu bar with "File", "Edit", "Setup", "Data", and "Help". The main content area of the window displays a large, white, oval-shaped graphic with a black border containing the text "Updating Buildings In CSCL". Below this graphic is the "CSCL" logo in a large, blue, stylized font, followed by the subtitle "Class Size Case Load Calculation - Fy2005" in a smaller, italicized font. At the bottom of the window, there is a rounded rectangular box containing the following text:

You will need to update the Building List in the CSCL database at the when:

1. there is an Attend Bldg error message after doing a Bldg Check of the Student Data.
2. there is a new Building Profile at the beginning of each of school year.

First, put the most LEAMIS Building Profile.txt file in your CSCL folder.

The Windows taskbar at the bottom shows the "start" button, several application icons, and the system tray with the time "6:08 PM".

The screenshot shows the CSCL 2005 application window. The title bar reads "CSCL 2005". The menu bar includes "File", "Edit", "Setup", "Data", "Selection", and "Help". The "Selection" menu is open, showing options: "Show All", "Show Subset", "Sort...", "Search...", "Load Set...", "Save Set...", and "Add Set...". A callout box points to the "Show All" option with the text: "After the building data is imported and updated, choose Show All from the Selection menu." Below the menu is a table with columns "LEA", "Building No", and "Building". The first row contains the values "000", "9999", and "AMERIC". At the bottom of the window is a toolbar with icons for "NEW", "EXPORT", "IMPORT", "DELETE", "QUICK", and "DONE". The Windows taskbar at the bottom shows the Start button, several application icons, and the system tray with the time "6:09 PM".
